JAN BERTLIK,

Freelance Web Developer

CAREER GOALS

Being able to constantly test the creative and analytical parts of my mind and reach my full potential. In a time of rapidly changing technological advancements, limits are becoming more a matter of 'when' and not 'how'. I want to have deeper knowledge of this on-going renaissance.

CORE STRENGTHS & SKILLS

- *Native English speaker*
- *Speaks Czech*
- *Ability to work independently as well as with a team*
- *Positive attitude to work and life*
- *Patient but passionate personality*
- *Excellent interpersonal skills*

EXPERIENCE

Self -Empolyed

MARCH 2018 - PRESENT

- Uploaded Flask blog / portfolio site to Heroku. Created a simple API and database where users can create, update, and delete posts.

- Finished a hands-on Python course which covers 10 Apps built from scratch. Frameworks and modules include: Django, Flask, PostgresSQL, MySQL, OpenCV, TKinter, Numpy, Bokeh, Pandas, Jupyter Notebook.

- Successfully completed a 12 week immersive web-development course at Bitmaker Labs Toronto. Focus on Ruby on Rails as the back-end with Javascript, HTML, and CSS as front-end. Built a working Rails App with a team.

ACADEMIC HISTORY

Udemy (Remote)

FEBRUARY 2019 - PRESENT
FULL TIME SELF-STUDY

- Completed: "Python Mega Course - Build 10 Real World Applications"
  - Learned about various Python modules and frameworks ranging from local and relational databases, importing real time stock data to an interactive web based graph, face and movement detection using a webcam, and more.
  - Link to course: https://bit.ly/2yzs0nl

- Completed: "Build a Crypto Currency Portfolio App With Python"
  - Focused on gathering real time Crypto Currency data from a 3rd party API and displaying that data as a graph in a stand alone executable application with a GUI.
  - Link to course: https://bit.ly/2XKMhUw

Bitmaker Labs, Toronto, Canada

MARCH 2018 - JUNE 2018
IMMERSIVE FULL-TIME WEB DEVELOPMENT

- Built working App using Ruby on Rails with a team. Product deployed on Heroku.
- Learned the fundamentals of Object Oriented Programming (OOP)
- Familiarized with how front-end and back-end code work in unison. More focus on backend databases using the MVC model.
